Art Unit: 1642

DETAILED ACTION

1. Claims 1-25 and 28-38 have been canceled. Claims 39-45 are pending. Claims 26, 27 and 39-45 are pending.

Election/Restriction

2. This application contains claims directed to the following patentably distinct species of the claimed invention: methods of inhibiting colon cancer, breast cancer, pancreatic cancer, liver cancer, bile duct cancer and central nervous system cancer.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species (colon cancer, breast cancer, pancreatic cancer, liver cancer, bile duct cancer or central nervous system cancer) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 26, 27, 39 and 40 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 1642

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karen Canella whose telephone number is (703) 308-8362. The examiner can normally be reached on Monday through Friday from 8:30 am to 6:00 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anthony Caputa, can be reached on (703) 308-3995. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0196.
